

Medical Leadership for Effective Organisations

Developing medical leaders in a changing NHS

Thursday 10th March 2011, Reebok Stadium, Bolton BL6 6JW

This conference will be relevant to Medical Leaders, Educators, Consultants, GPs & doctors in training

This conference is an opportunity to explore how clinicians can transform the organisations in which they work through effective leadership. It will include an overview of medical education and the importance of leadership as well as looking at the impact of organisational culture and creativity on successful leadership. We are delighted to be able to welcome three outstanding speakers with national and academic leadership experience. The small group workshops will allow for detailed discussion on topics of particular interest and will include practical hints and tips for developing and supporting medical leadership. The conference will be an excellent opportunity for networking and we hope to add to the now growing community of effective medical leaders.

We look forward to welcoming you to Bolton.

Professor Jacky Hayden, Dean of Postgraduate Medical Studies, North Western Deanery
