Appraiser Training for General Dental Practitioners

This half day course will provide basic training for Dental Clinicians to help them develop an understanding of the appraiser role as part of an appraisal process. It is available to Greater Manchester Dentists.

Working in partnership with the LDCs, HENW have identified a limited number of training places for Dental Appraisers and would like to seek applications from previous appraisers trained under the PCT schemes or any GDPs who are interested in appraiser training.

Objectives:

- Introduction to the principles of Appraisal and why HENW: Postgraduate Dentistry are working with LDCs to support the Scheme
- The opportunity to peer review the appraisal process providing a valuable insight into appraisal and its value
- Review all processes and paperwork associated with Appraisal
- Identify the skills and competencies required to undertake the role of an appraiser

Learning outcomes:

- By attending this course you will have gained an understanding of the appraisal process and the role of an Appraiser.
- You will be able to make an informed decision if this role is for you.
