

Developing as a Medical Leader

Exploring Leadership for a new NHS Landscape

Thursday 8th March 2012 Reebok Stadium Bolton BL6 6JW
09.30 Registration - 16.30 Close

This conference will be relevant to Medical Leaders, Educators, Consultants, GPs, SAS Doctors & Doctors in Training. Delegate fee: £95 for GPs & Consultants / £75 for Trainees.

This conference will explore how to develop as a 'medical leader' in view of the new NHS landscape. We will consider what is meant by and required of medical leadership in the NHS before looking to wider business to investigate what lessons can be learnt and applied for the benefit of patient care. We are again delighted to welcome three outstanding speakers with extensive national and academic leadership experience. In addition, workshops will allow for further exploration of topics. There will be opportunities to facilitate a workshop and/or display a poster to highlight your experience of developing leadership. We hope the conference will continue to add to the now growing community of medical leaders and will be an excellent opportunity for networking sharing learning on a national scale.

We look forward to welcoming you at Bolton.

Professor Jacky Hayden, Dean of Postgraduate Medical Studies, North Western Deanery
Professor David Graham, Postgraduate Medical Dean, Mersey Deanery
Dr Tina Ambury, Chair of RCGP North West Faculty
