

## **Anneliese Pantin BDS**

---

I qualified in from Manchester University in 2006. I specialise in general practice and I am currently a part-time general dental practitioner working as an associate at Harpers Dental Practice, which is a busy NHS practice, in Bolton. I have worked there since 2009. I enjoy the challenges of every day practice and have an interest in dental education. I have been an appraiser since 2010.

I am married and have 2 young sons and a baby girl. In my spare time, which is rare these days, I enjoy socialising with friends, shopping but most of all spending time with my family.

*If you would like to set up an Individual Peer Review contact the [appraisal team](#) and inform us of your ambassador choice*
