ES Biography:	<p>I graduated from the University of Birmingham in 2001 and went on to establish Glodwick Dental Centre in 2008 alongside three partners. Since then, I have played an integral role in the development and growth of the practice. For over fifteen years, I have served as an Educational Supervisor, a role I find both rewarding and inspiring. I look forward to continuing in this capacity and embracing the fresh challenge of mentoring a new Foundation Dentist in the coming year. I am passionate about dental education and take great pride in leading a skilled and cohesive dental team. My commitment to professional development is ongoing, and I actively seek opportunities to enhance both my clinical expertise and leadership capabilities in order to provide the highest standards of care and mentorship.</p>
