

COPDEND agreed template to accompany Orthodontic St1 (CCST) posts declared for Orthodontic National recruitment. V2.0 Author: Peter Briggs. Approved: April 12th 2023.

		Delivery within post
Orthodontic St1 Post Job Description	<p>Approval has been granted by the Post Graduate Dental Dean of the NHSE NW Statutory Education Body (SEB).</p> <p>The successful trainee to this post will be allocated a National Training Number.</p> <p>The normal period of Orthodontic pre-CCST ST posts will be for three years of consecutive training, subject to satisfactory progress by the trainee.</p> <p>Run through posts will include both pre-CCST and post-CCST elements.</p>	
2010 Curriculum Research requirement	<p>The Orthodontic 2010 research component should fulfil the minimum M level requirements of the Quality Assurance Agency and may take the form of satisfactory submission of a research dissertation (for example as part of an MSc, MClintDent, DDS or equivalent), and / or two papers in appropriately peer reviewed journals submitted on work undertaken during the training period.</p> <p>This post can provide this requirement either by;</p> <p>1. Option 1:</p> <p>Successful submission of 2 papers which will be supported by the orthodontic training body at no cost to the trainee. Appropriate projects and support by named supervisors will be offered.</p> <p>Or</p> <p>Option 2:</p>	<p>Research Option 1:</p> <p>The PGDD undertakes to provide support for submission of two papers within this post.</p> <p>Appropriate projects and support will be offered by research supervisors for this.</p> <p>Submission of 2 papers will be supported by the local orthodontic training faculty at no financial cost to the trainee.</p> <p>Research Options 2:</p> <p>Consideration of research options will be encouraged, where appropriate.</p> <p>Any funding requirement for such will be the responsibility of the learner (as option 1 is available within post).</p>

	<p>Successful submission of a self-funded M level research degree</p> <ul style="list-style-type: none"> ○ Part-time MRes at University of Manchester– current cost £11,300 over 2 or 3 years ○ Liverpool Orthodontic ST1 posts, see job description. 	<p>Note: As a Full time NHS employee it will only be possible to enrol on a PT university degree. NHS training timetable requirements mean this cannot be for more than 3 sessions per week.</p> <p>Trainees wishing to enrol on a FT 'taught' Masters or Doctorate programme can consider application for an Out of Programme (OOP) to do so.</p>
Choosing appropriate Research requirement	<p>The trainee will have the opportunity to formally meet to discuss which route is most appropriate for them.</p> <p>This meeting will include nominated designate(s) senior clinicians of the PGDD (e.g. Postgraduate Associate Dental Dean), the specialty TPD and the Education Supervisor and relevant members of the training faculty, once the post has been accepted.</p>	<p>This meeting will be facilitated and take place once the trainee has been offered the post.</p>
Arrangements for the Specialty Education Programme	<p>The trainee will have access to a specialty educational and typodont / simulation programme throughout the training programme, which supports the curricula elements of CCST training.</p> <p>Local agreements between NHS and University faculty will facilitate this.</p>	<p>Access to the CCST educational programme will be available for trainees who choose either Option 1 or Option 2, for the delivery of the 2010 curriculum research requirement.</p>
