DFT Practice Profile

M60 Dental Care is a modern 6-surgery practice, carrying out a wide range of NHS and private dental treatments.

We are fully equipped with premium materials and equipment; including digital x-rays, rotary endo, surgical kit, intra-oral scanner and SoE electronic record system.

We have a friendly and supportive team of staff with long standing, fully qualified nurses and reception team. Our dentists are all highly skilled and approachable with varying special interests including oral surgery, periodontics and Invisalign. We have access to hygiene and therapists on site, as well as an implantologist at our sister practice.

The surgery is well equipped with good staff facilities including changing rooms, large staff room and on-site parking. We are accessibly located just off junction 22 of the M60, and there are good transport links into Manchester via bus and tram.

Overall the excellent practice facilities and staff team allows us to consistently provide a high quality standard of care for our patients and ensure an enjoyable working environment for all of our team.

Thursday 08:30 - 17:30 09.00 – 17.00

Friday 08:30 - 16:30 09.00 – 16.30

DFT ES Biography

I am an Associate Dentist and the Clinical Lead at M60 Dental Care.

I qualified from Leeds Dental School in 2017, and following my Foundation year, I did a Dental Core Training post at Birmingham Dental Hospital (BDH) in Restorative and Oral Surgery. I then continued as an Oral Surgery and Primary Care dentist at BDH, alongside working in general dental practice for another year, before moving to Manchester.

From this, I developed a special interest in Oral Surgery, and enjoy taking on difficult and surgical extractions.

The majority of my clinical time is spent carrying out a wide range of dental treatments and seeing patients of all ages and varying dental needs, which I find makes general dental practice interesting and enjoyable. As Clinical Lead I am also involved in the management of the practice, and aspects such as clinical audit and peer appraisals.

I am particularly passionate about teaching, ever since my experience with teaching undergraduate students during my time at BDH. I greatly enjoy supervising and working alongside junior colleagues to support and encourage you to achieve your greatest potential.

I am an approachable and laid back person, and value working in a relaxed and friendly environment. I look forward to welcoming a future Foundation Dentist and colleague at our lovely practice.
