Introduction

Library and electronic resources in training practices

1. We recognise that most of the resources used by trainees are now in an electronic format. This influences how we share that information. The library and collection of electronic links needs to be a “thing” i.e. an easily accessible shared list of recommended links that trainees are aware of that covers clinical areas and local and national guidance that is kept up to date and easily accessible from any computer.
2. There are still some areas where books are essential – these are likely to include consultation books, exam books, areas such as leadership, ethics, statistics. Where a library contains a lot of older texts, we suggest they are removed or archived, and a small clearly labelled section of recommended books is made available, with opportunity to purchase up to date books where needed.
3. Suggested websites/links and books are listed below

It is expected that a training environment will have a library resource with some representation from each of the different areas listed below.

Not all the books or resources need to be present. The trainer should be aware of this list and decide what the most appropriate resources for their learning environment are.

These may be as a physical text or as an online resource with the password if needed remembered in the browser. Online resources are clearly preferable in most circumstances.

The GP school would also like to see the educational resource develop into a multidisciplinary learning resource with the inclusion of resources for nursing, pharmacy and allied health care colleagues.

Journals for the last 2 years such as the BJGP, BMJ and AiT should also be accessible; if online the learner should not use other individuals log on details.

For those who feel that it is also useful to have ready reference to clinical areas, there is a general list of clinical books that many GPST's find useful.

In addition to this reading list, we expect that you will create a folder containing links to significant resources for learning on the desktop.

GP Programme Resources

TALC (Teaching and Learning Consultation Skills) Toolkit

TALC is a set of learning modules covering all aspects of teaching and learning consultation skills. This resource was developed by NHS England's GP Training Programme and is available free of charge to healthcare professionals who are part of the NHS.

Visit the TALC Toolkit Here:

<https://consultationskills.com/>

Padlet Resource

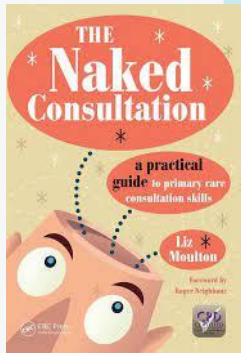

This padlet resource, developed by Associate Dean Mohan Kumar, contains helpful information to support you through your GP training.

Visit Padlet Here:

Key Texts

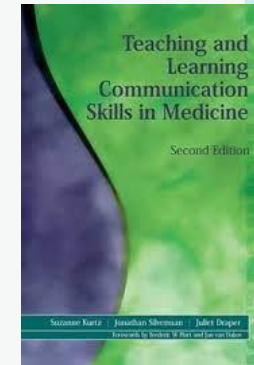

These are the key texts that we would expect to see in all learning environments.

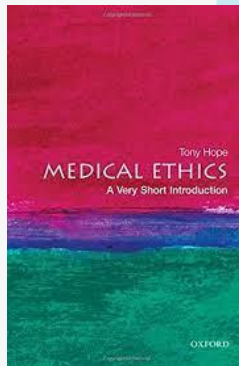

The Naked Consultation
A Practical Guide to Primary Care Consultation Skills
ISBN-13: 978-191022711
Author: Moulton

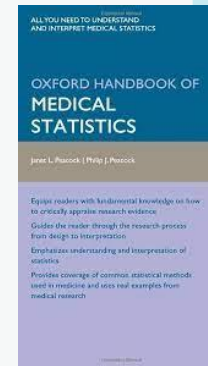

Skills for Communicating with Patients
ISBN-13: 978-1846193651
Author: Silverman

Teaching and Learning Communication Skills in Medicine
ISBN-13: 978-1857756586
Author: Silverman

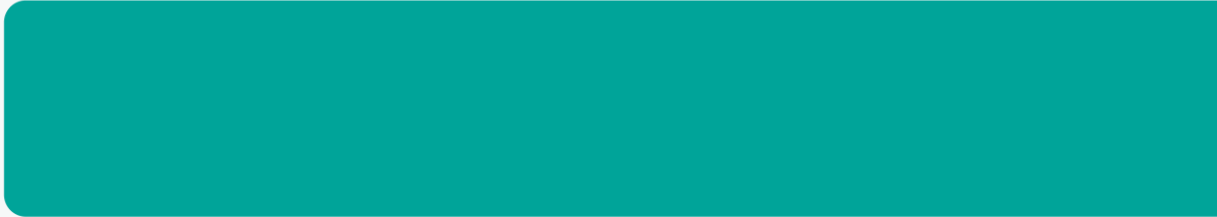

Medical Ethics: A Very Short Introduction
ISBN-13: 978-0198815600
Author: Dunn and Hope

Oxford Handbook of Medical Statistics
ISBN-13: 978-0198743583
Author: Peacock and Peacock

ISBN-13: 978-1857756708
Author: Neighbour

Ethics

Primary Care Ethics
ISBN-13: 978-1857757309
Author: Bowman

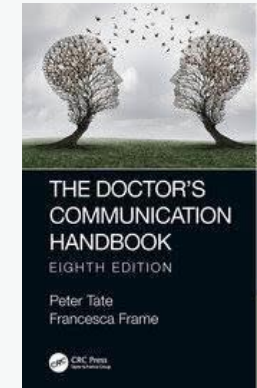

Consultation Skills

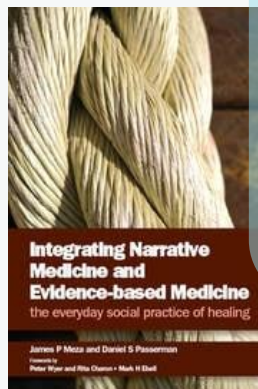

The Inner Consultation
How to Develop an Effective
and Intuitive Consulting Style
ISBN-13: 978-1857756791
Author: Neighbour

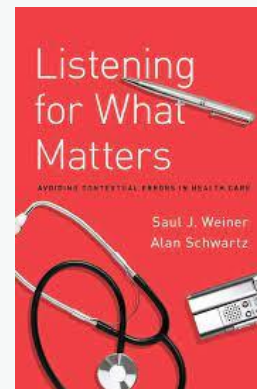

**Telephone Triage and
Consultation: Are We Really
Listening?**
ISBN-13: 978-0850844269
Author: Pygall

**The Doctor's Communication
Handbook**
ISBN-13: 978-0367198213
Author: Tate

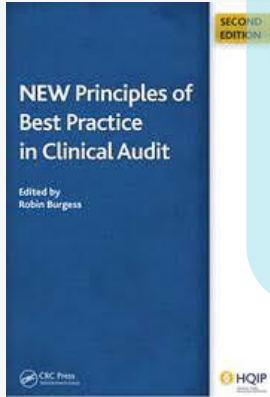

**Integrating Narrative Medicine
and Evidence-Based Medicine**
ISBN-13: 9781846193507
Author: Mezza

**Listening for What Matters:
Avoiding Contextual Errors in
Health Care**
ISBN-13: 978-0190228996
Author: Weiner

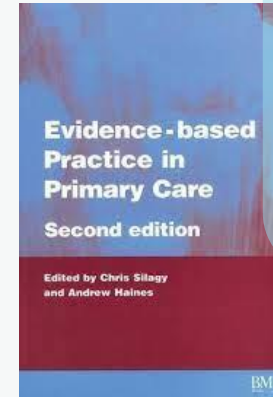

Critical Reading

New Principles of Best Practice in Clinical Audit
ISBN-13: 978-1846192210
Author: Burgess

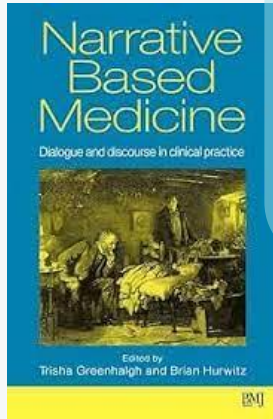

How to Read a Paper
ISBN-13: 978-1119484754
Author: Greenhalgh

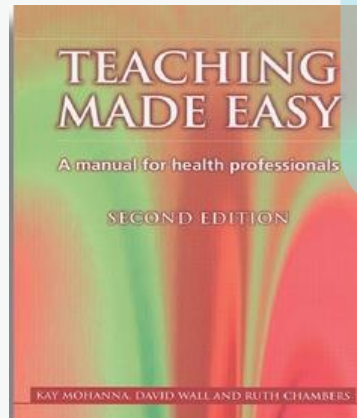

Evidence-based Practice in Primary Care
ISBN-13: 978-0727915689
Author: Silagy

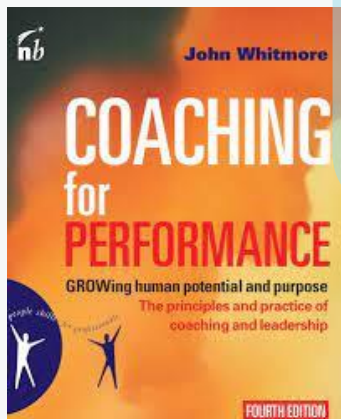

Teaching

Narrative Based Medicine
ISBN-13: 978-0727912237
Author: Greenhalgh

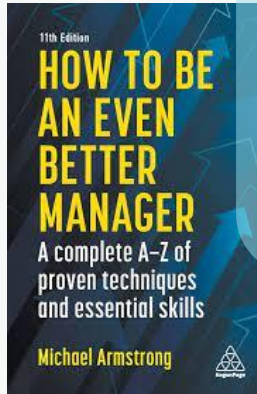

Teaching Made Easy
ISBN-13: 978-1846194894
Author: Mohanna

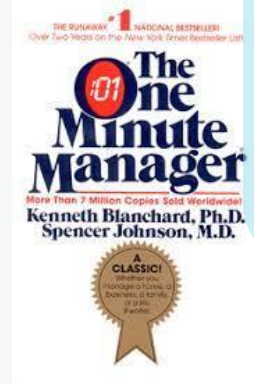

**Coaching for Performance:
GROWing Human Potential
and Purpose - the Principles
and Practice of Coaching and
Leadership**
ISBN-13: 978-1857885354
Author: Whitmore

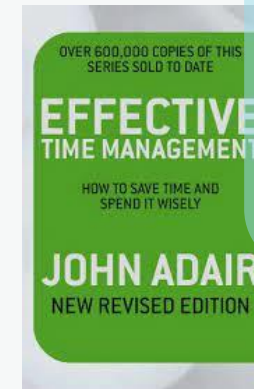

Management

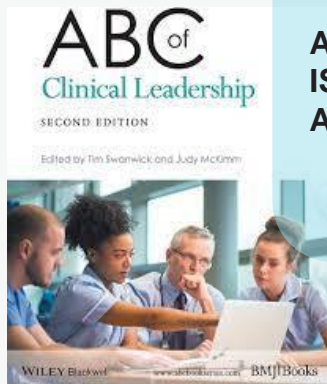

How to Be an Even Better Manager
ISBN-13: 978-0749442620
Author: Armstrong

The One Minute Manager
ISBN-13: 978-0007107926
Author: Blanchard

Effective Time Management
ISBN-13: 978-0330504249
Author: Adair

ABC of Clinical Leadership
ISBN-13: 978-1119134312
Author: Swanwick

Leadership and Management in Healthcare
ISBN-13: 978-1473965027
Author: Gopee and Galloway

Quality improvement activities

Quality improvement activities and projects in Primary Care are mandatory elements of Workplace Based Assessments for GP Specialty Trainees

The Salford & Trafford GP Specialty Doctors in Training have demonstrated true innovation in these projects, improving patient care, staff wellbeing and Practice systems. These short video presentations illustrate a selection of these activities - [QIP Presentation](#)

Virtual Primary Care

During your GPST1 year you will be eligible for access to the Virtual Primary Care platform. Virtual Primary Care is an exciting new resource consisting of 150 diverse, real life primary care consultations videos covering a wide range of clinical topics.

Every consultation on this searchable database has been tagged for clinical and educational content and is accompanied by a brief summary, associated learning points, references and suggested student activities.

Please view the [Virtual Primary Care poster](#) for further information or email england.primarycareschool.nw@nhs.net

Virtual Primary Care - Postgraduate (VPC-PG)
A learning resource providing UK General Practice specialty trainees access to a video library of authentic primary care consultations.
