Tasters in Psychiatry

Psychiatry Foundation Tasters

Did you know?

- ❖ 70% of women suffer from mental health problems at some time
- ❖ Schizophrenia is three times more common than Type 1 diabetes
- ❖ 40% of patients in the General Hospital have a mental health issue contributing to their admission
- ❖ Patients are more likely to die after a heart attack if they are depressed
- ❖ 60% of 18 year olds in the urban NorthWest have used drugs
- ❖ Treating mental illness involves great communication skills, thinking about the whole patient, and using all your medical knowledge

Are you curious to find out more about mental health, or maybe you are thinking of psychiatry as a career?

We can offer tasters in

- Perinatal psychiatry
- Substance Misuse
- Inpatient psychiatry
- Early intervention
- Assertive outreach
- Community Care
- Psychiatry of Older Age
- Rehab psychiatry
- Psychiatric intensive care
- Crisis resolution
- Child & Adolescent Psychiatry
- Learning Disability
- Academic psychiatry

Pick n Mix your own half or full days for up to a weeks taster in psychiatry, or we can pick for you
