The application process is to approve time off as well as expenses.

If you do not need to take time off as study leave but wish to claim expenses you must still apply for study leave.

There are two parts to the study leave process:

1. The Application

This is the part of the process that involves getting approval for the time off and for any funding associated with the leave. You cannot claim any expenses unless you have had them approved first.

2. The Claim

The process involved in reimbursing expenses associated with the study leave. You can only do this after your application has been fully approved.

GENERAL INFORMATION

Study leave budget years run from 1st March to 28th/29th February each year. The year in which funding will be taken is based on the year in which the 1st day of the study leave falls, not on the year which it was applied for.

The year from which the number of days allowed is calculated runs from 1st October to 30th September each year.

Core Trainees

Study leave is normally permitted up to a maximum of 30 days per year (15 days per half year).

Specialist Registrars and Higher Specialty Registrars (ST3 and above)

Study leave is permitted for a maximum of 30 days per annum.

FTTAs/LATs

Study leave is permitted for a maximum of 30 days per annum or pro rata when the appointment is for less than a year (for example a maximum of 15 days study leave can be taken by a LAT appointed for 6 months).

In some circumstances, 15 of the 30 days will be taken for the formal teaching programmes organised by the individual specialities. Please check with your Training Programme Director. Trainees may be granted up to a maximum of 7 days leave per year for private study.

Trainees who are absent from work on sick leave are not usually eligible for study leave unless there are exceptional circumstances. Those trainees who are on maternity or paternity leave should have access to study leave only in exceptional circumstances. Please see the full guidelines for further details.

THE APPLICATION

Guidance for applying for study leave

Please make sure you have the most recent version of the study leave application form, as it is occasionally updated. This can be downloaded from the Study Leave Section of our website: www.nwpgmd.nhs.uk/studyleave

Applications should be submitted your Study Leave Specialty Administrator, along with appropriate confirmation of approval from your Educational Supervisor and Rota Coordinator.

Core Medicine Trainees (CMT), Core Surgical Trainees (CST), ACCS trainees and Anaesthetic trainees at Grade ST1 & ST2 have Study Leave Administrators based on their sector, details of which are on the Study Leave Section of our website.

The Study Leave Section at HEE North West Office should be in receipt of a correctly, fully completed application form prior to the proposed leave. Retrospective applications will not be considered. Your local base hospital may require notification of time off further in advance; please check your local trusts requirements.

Lists of Study Leave Administrators can be found on the Study Leave Section of our website: www.nwpgmd.nhs.uk/studyleave

Psychiatry trainees should use the online School of Psychiatry form (linked from the Study Leave page on our website) which will automatically forward your application to the Study Leave Administrator for Psychiatry based in the School of Psychiatry. Applications should not normally be sent to the Study Leave Administrators based in the HEE North West Office.

Applications should not normally be sent directly to your Training Programme Director (TPD). An exception would be where your TPD is also your Educational Supervisor.

When calculating study leave, all the days approved and carrying a liability for expenses are counted, including weekends and Bank Holidays. Time spent travelling to and from the event is also counted.

If you are presenting at a conference you are applying for, either a poster or orally, please provide confirmation of this when you apply.

Overseas Applications

Overseas study leave can be approved for higher specialist trainees in exceptional circumstances. Overseas is defined as any country outside the UK.

Study leave abroad will not be granted for the purpose of studying for an overseas qualification or to attend examinations overseas.

Generally only 1 overseas trip will be funded in the whole of your training (not per year).

Changes to your approved study leave

You must notify us of any changes to approved study leave. This includes cancellations, date changes and changes to fees. Failure to do so may cause delays in the processing of your claim, or you may not be reimbursed the expenses you were expecting.

THE CLAIM

Important things to remember about claiming expenses
