**'Run-through'** posts are those posts where upon completion of the core surgical curriculum, anyone appointed will move up to the ST3 higher surgical programme for that specialty, without the need to go through national selection.

**'Uncoupled'** posts are those posts for completion of the core surgical curriculum only. Upon completion, doctors appointed to these will need to apply through national selection for an ST3 higher surgical training post in their chosen specialty.

Region Map	Page 11
------------	---------

**For further information about core surgical training in the north west of England, please visit the [North West School of Surgery website](#)**

Each track has two "Track codes" – a sector code (starting "MER" for the Cheshire and Merseyside sector or "NWD" for the Greater Manchester, Lancashire and South Cumbria sector) and a "specialty" code indicating the theme of the track.

**Please Note: From 1 April 2023, Health Education England is expected to become part of the new NHS England.**

# North West of England Core Surgical Training, August 2023 Recruitment – Run-through Tracks

## Cheshire and Merseyside Sector

Indicative placements (correct as of 29 January 2023)

Health Education England

Oral and maxillo-facial surgery		Run-through track	Cheshire and Merseyside sector	
Grade:		ST1		ST2
Placement Length:		6 months	6 months	6 months
MER14	OMFS01	General Surgery (Colorectal) Leighton Hospital	Otolaryngology The Royal Liverpool University Hospital	TBC if required
!		The doctor appointed to the above OMFS run-through post is usually expected to progress to ST3 after ST1 (August 2024) and will rotate around the Cheshire and Merseyside sector of HEE North West.		

### Please note regarding run-through training programmes:

HEE has stopped recruitment to all run-through pilot programmes. No run-through pilot posts will be recruited to start in August 2023. The tracks previously offered as part of the run-through programmes will be offered as uncoupled tracks instead.

Run-through pilot programmes were:

- General surgery IST
- Otolaryngology
- Paediatric surgery
- Trauma and orthopaedic surgery IST
- Urology IST
- Vascular surgery IST

There is no cardio-thoracic surgery run-through recruitment in the Cheshire and Merseyside sector for August 2023 – recruitment will be to the Greater Manchester, Lancashire and South Cumbria sector only ([see page 6 for track information](#)).
