

## Health Education North West – Mersey Programme Overview

*Restorative Dentistry, ST1, 5 year NHS training post.*

The Liverpool Restorative Dentistry training programme is based at the Liverpool Dental Hospital with allocated surgical sessions within the Maxillofacial Unit at University Hospital Aintree in Oral & Facial Rehabilitation.

The full range of training opportunities are available within this modern training unit with excellent Consultant chair-side support. The unit has 5 Academic Consultants and 4 NHS Consultants working across the complete range of sub-specialty interests, many with national reputation. Training is carried out in a multi-disciplinary environment with modern facilities with full nursing and technical support on-site.

Training programmes are tailored to individual StRs learning and development rather than a uniform approach for all trainees.
