

Joseph Lee BDS

I qualified in Manchester in 1990. I specialise in General Practice and work in a busy NHS 2 surgery practice in Shevington village near Wigan. I have been principal here for 24 years and we provide family dentistry in a relaxed and friendly atmosphere. I help with training the local hospital student oral surgery nurses in general dentistry for the NEBDN. I was a dental appraiser for Wigan PCT originally and when they were disbanded and the Area Team formed I moved onto the Greater Manchester panel. I have always been passionate about CPD and as part of my role with Wigan LDC I organise CPD events for the whole dental team. I find carrying out appraisals very rewarding and enjoy helping colleagues develop PDPs relevant to their individual needs.

I am married with a grown-up son. We are a family of Wigan rugby fans and follow them home and away. In my free-time I am a keen hill walker and get out on the fells as often as I can.

If you would like to set up an Individual Peer Review contact the [appraisal team](#) and inform us of your ambassador choice
