|   | Vulval disease  |

We are currently **unable** to provide the following training opportunities (please list)

Fetal Medicine

Advanced Laparoscopy

**Free text comments:**

We are a small unit with low delivery rate but a fairly busy gynae practice with emergency and elective work.

We have training posts from ST3 onwards.

We have the provision for 2 trainees.

Rest of the slots in middle grade rota are covered by permanent specialty doctors.

There is ample opportunity to do major and minor gynae surgery.

Opportunity to participate in risk management and RCAs.
