19:00 - 20:30
MS Teams

Featuring Speakers on:
Medical Military Leadership, and
Founder of Geeky Medics

NWLS

@ NorthwestNWLS

@ NorthwestNWLS

**Dr Lewis Potter,
Founder of Geeky Medics**

'I started this project 12 years ago when I was a medical student and was frustrated by online medical education. Over time we've also developed a team of brilliant educators who are helping to expand the reach and impact of Geeky Medics. We've now had over a quarter of a billion views of our content from an audience spanning more than 150 countries, which I continue to find astonishing.'

**Dr Richard,
UK Military Doctor**

'As a Military Doctor, I have been fortunate to be a part of two Professions which place a high value in developing Leadership and pursuing its study. This has afforded me the opportunity to explore Military and Clinical Leadership concepts as well as their interface through experiences both in the UK and abroad. Through this event, I aim to discuss some reflections on Military Medical Leadership whilst hoping to provoke further thought on points that you may wish to consider in your practice.'
