This conference will be relevant to Medical Leaders, Educators, Consultants, GPs, SAS Doctors & Doctors in Training.

The conference will explore how investing in medical leadership will contribute to meeting the current challenges facing the NHS. We are again delighted to welcome three outstanding speakers with extensive national and academic leadership experience. The themes will include understanding leadership in the context of international healthcare systems and the relationship between leadership and followership. As the conference enables the sharing of learning on a national scale there will be opportunities to facilitate a workshop and/or display a poster to highlight your experience of developing leadership.

We look forward to welcoming you at the Conference.
