Practice Profile: (e.g. how many surgeries, equipment, location/area, staff members, dentists with special interests, etc)	<p>Museum Street Dental Practice is located within central Warrington providing care to a broad range of patients from varying socio-economic groups. The practice has been providing NHS Dental services to the local community and beyond for over 50 years.</p> <p>Warrington is a vibrant town with plenty of high quality shops and restaurants and is easily commutable with excellent transport links. Due to the central location of the practice, there is a nearby central bus station and two train stations. There are also plenty of nearby car parking sites .</p> <p>The practice has operated as a UDC throughout the COVID pandemic and we also provide outreach placement for the Liverpool University Dental students.</p> <p>Treatment is carried out from 7 surgeries providing the core of NHS dental treatments as well as private and independent care options. Any foundation dentist appointed to the practice will be exposed to a wide variety of clinical cases. From dentures to dental implants and gum treatments to aesthetic tooth-coloured</p>
--	---

	<p>fillings- we provide a full and comprehensive dental service. We also have a visiting dentist who provides special interest endodontics .</p> <p>We have a fantastic dental team comprising 7 dentists, 1 therapist , 2 head nurses and 2 managers as well as multiple nurses and reception staff. We are a friendly, laid back but professional team who provide excellent support and an open-door policy that encourages learning. The practice is owned by long-term foundation trainer and experienced dentist Dr Ian Sproat, and our diverse team of associates. We also provide on-site specialist endodontics and implants. There's a fantastic culture of friendliness, collaboration and everyone would be happy to give advice and help if needed.</p> <p>The practice is computerised using Exact SOE and Examine Pro for digital radiographs. We also have an intra oral scanner (Trios 3) and are looking at investing in a second scanner and CBCT machine in the near future. We use apex locators and the Wave 1 Gold system for endodontics and have a practice SLR camera with ring flash and macro lens . We also have a surgical motor and electro cautery kit</p>
ES Biography:	<p>I qualified from University of Liverpool in 2020, and have since worked in Wales, Western Australia and Warrington in both fully private and mixed NHS/private practices.</p> <p>I enjoy all aspects of dentistry, with expertise in dental photography, 3D dentistry, experience in simple orthodontics, composite bonding and aesthetic porcelain work. I am looking to further my career in dental education through a PGCert in Education in a Medical Setting.</p> <p>I am passionate about teaching, and believe that Museum Street provides a fantastic learning environment. Myself and the team are committed to providing a safe and friendly environment to help you grow as a clinician and person. As a team we have been looking after FDs for a long time, we know it's not always smooth-sailing, so we operate very much on an open-door policy.</p>
