6 Travel Commitment

7	Primary Care Element	<p>Wirral Specialised Dental Service</p> <p><u>Site 1:</u> Victoria Central Dental Clinic Mill Lane, Wallasey, Wirral CH44 5UF</p> <p>Facilities are available for the provision of the full range of primary care in Paediatric Dentistry, including treatment under inhalation sedation and assessments for children requiring general anaesthesia. From July 2023, there will be 5 newly refurbished dental surgeries on site which are well equipped for the provision of dentistry. There is excellent support from a team of experienced dental nurses, and the opportunity to work alongside a dental therapist, allowing a team approach to care provision. This clinic is also well equipped for catering to the needs of all Paediatric patients including multiple bariatric dental chairs, hoist and wheelchair tipper. Domiciliary dental services are also provided when required.</p> <p>The appointee will be given to opportunity to actively engage with the clinical governance and quality improvement activity within the department.</p> <p><u>Site 2:</u> Arrowe Park Hospital Arrowe Park Rd, Upton, Wirral CH49 5PE</p> <p>There is access to theatre suites for the routine exodontia for children under day case general anaesthesia in the main hospital. Multidisciplinary clinics are held with the orthodontic and restorative departments at Arrowe Park and these are accessible to trainees at all levels.</p> <p>Merseycare NHS foundation trust</p> <p><u>Site 1:</u> Old Swan Walk-in Centre Crystal Close, Liverpool L13 2GA</p> <p><u>Site 2:</u> Whiston Hospital Warrington Rd, Rainhill, Prescot L35 5DR</p> <p>Lancashire Teaching Hospitals NHS foundation trust</p>
---	----------------------	---

This is a consultant lead service through LTH which is run within the hospitals in the Lancashire region and some sessions held in regional units.

Site 1:

UCLan Dental School, Preston

University of Central Lancashire issuing it's own BDS degrees for 4 year BDS graduate entry program and postgraduate degrees in periodontics, endodontics and implantology. Opportunities for undergraduate BDS and therapy teaching and some input to masters degrees. Clinics set up as one open bay and multiple closed rooms, access to CBCT and intraoral scanners as well as operating microscope and potentially inhalation sedation.

Site 2:

Skelmersdale Walk-In Centre, Skelmersdale

This small 2 surgery unit with inhalation sedation, microscope and OPT with bitewing facility is a legacy service from when the previous community dental services joint LTH. At this site level 2 and 3 care is provided to the West Lancashire residents for both Paediatric and Special Care Dentistry. Although contractually it operates as a hospital trust, the clinical work is very much what a CDS practitioner would encounter.

<p>8</p>	<p>Description of the training post</p>	<p>A Specialty Trainee ST1 appointment in Paediatric Dentistry is available for training to a Consultant Level.</p> <p>The objective of this training program is to produce a Consultant Paediatric Dentist who can provide local specialist services in a primary care and/or hospital setting.</p> <p><u>Main activities and responsibilities:</u></p> <ul style="list-style-type: none"> • To undertake specialist training in Paediatric Dentistry. • To undertake clinical procedures within the curriculum for Paediatric Dentistry. • To attend continuing education courses as appropriate. • To provide an exemplary ethical standard as a role model for students at all levels. • To take part in all aspects of clinical governance activities in the Directorate and participate in appraisal and postgraduate educational activities. <p>Clinical duties will include patient consultation clinics and operative sessions for provision of care under the direction of Consultants and Specialists in Paediatric Dentistry for patients who have been referred for secondary and tertiary care. However, this arrangement is indicative of the role and will be a result of balancing the needs of the Departments with those of the individual. For part-time or job-share appointments, timetables will need to be discussed individually. Timetables will be reviewed each year in line with the development needs of the individuals and opportunities for training within the wider North West region. Trainees may be expected to travel for block placements in hospitals and community dental clinics across the region.</p> <p><u>Entry Requirements</u></p> <p>The Specialty Trainee will be appointed by a committee comprising representatives of the Postgraduate Dean, Specialty Training Committee, the Teaching Hospitals, and National Panel of Specialists. Candidates must hold a registerable dental degree (B.D.S. or equivalent) and must be eligible for full registration with the GDC. Applicants will be expected to provide evidence of their competence to communicate in English.</p> <p><u>THE POST</u></p> <p>It is expected that the successful candidate will initially enter into a specialist (pre-CCST) training in Paediatric Dentistry and following passing of the Membership in Paediatric Dentistry, and completion of their 3 years (full-time) pre-CCST will enter into post-CCST training within the same unit. On completion of 2 yrs (full-time) post CCST training and successfully passing the ISFE, they will be eligible for a Consultant post in Paediatric Dentistry. The outline training programme has been approved by the Specialist Advisory</p>
-----------------	--	---

		<p>Committee in Paediatric Dentistry and the Dean for Postgraduate Dentistry, NHS England, North West.</p> <p>The training programme would extend over a 5 year period (full time run-through) and would be based on the SAC approved Paediatric Dentistry CCST program. Training would be based at all of the sites listed above. The successful candidate will take part in all aspects of clinical governance activities and participate in appraisal and postgraduate educational activities.</p> <p><u>Education and Training</u></p> <p>Both the UK Specialist Curriculum in Paediatric Dentistry and the tri-collegiate Royal College of Surgeons of Edinburgh blueprints in Paediatric Dentistry are embedded into the programme.</p>
9	Educational programme and library facilities.	<ul style="list-style-type: none"> • Weekly journal club for all staff including ST1-ST5 and postgraduate students • Regular department meetings, clinical governance meetings, audit meetings • MDT meetings at Liverpool University Dental Hospital, Alder Hey Children’s Hospital and regional study days ST3-ST5 • Teaching opportunities on the PG and UG programme for dental and hygiene and therapy students (didactic and clinical teaching) at Liverpool University Dental Hospital and UCLan • Managed Clinical Network meetings
10	Employing Organisation	<i>Lead employer for NHS E NW – Mersey and West Lancs Trust</i>
11	Will the employing organisation change during the training period? E.g. at rotation	<i>No</i>
