Practice Website	www.kenyondental.com

Practice Profile: (e.g. how many surgeries, equipment, location/area, staff members, dentists with special interests, etc)	<p>Originally established in 1986 by Martin Kenyon as a single-surgery practice, our practice has grown steadily and thoughtfully over the years. Today, we're proud to operate from a spacious, modern facility with 13 fully equipped dental surgeries, caring for over 45,000 patients.</p> <p>Based in Lytham, we're well-positioned in a vibrant coastal town with excellent transport links to Blackpool, Preston, and the wider North West. Our large patient base and diverse community mean that no two days are ever the same – ideal for dentists looking to gain varied experience in general practice and beyond.</p>
--	--

	<p>We provide both NHS and Private care, with a strong emphasis on clinical quality, ethical treatment, and long-term patient relationships. Our practice is well-equipped with digital radiography, intraoral scanners, CBCT, rotary endo, and high-spec surgery setups, giving clinicians the tools they need to work efficiently and confidently.</p> <p>We're proud to be a team-driven practice, with over 30 team members, including dentists with special interests in implant dentistry, orthodontics, prosthodontics, endodontics and oral surgery. We also have a supportive team of dental therapists, hygienists, and nurses, many of whom are experienced in working with foundation dentists and those early in their careers.</p> <p>Mentoring and professional development are a big part of our ethos. Our clinicians regularly supervise foundation dentists, and those with a special interest in teaching enjoy helping newer colleagues build skills and confidence. There's a genuine sense of collaboration here – whether it's treatment planning, skill-sharing, or day-to-day support.</p> <p>If you're a newly qualified dentist looking for a friendly, forward-thinking practice where you'll be supported, challenged, and encouraged to grow, we'd love to welcome you to the team</p>

ES Biography:	<p>Mr Peter Kenyon</p> <p>BDS (Distinction), MCLinDent (Distinction), MSc (Distinction), M Imp Dent RCSEd, Dip Imp Dent RCSEd, MJDF RCS (Eng), PGCert</p> <p>I'm originally from Lytham, and after training and working around the UK, I was glad to return home and join the practice in 2016.</p> <p>My journey in dentistry began at the University of Bristol, where I completed my undergraduate training and</p>
----------------------	--

graduated with Distinctions across multiple disciplines, including Restorative Dentistry and Orthodontics. I went on to gain further experience in a mixed Private and NHS practice in Ascot, followed by a year of intensive training in Restorative Dentistry at the Royal London Hospital. During this time, I also completed postgraduate exams to gain Membership of the Joint Dental Faculties at the Royal College of Surgeons of England.

I've always been drawn to complex treatment planning and long-term patient care, which led me to complete a Master of Science in Dental Implantology with Distinction at the University of Bristol, a Diploma in Implant Dentistry from the Royal College of Surgeons of Edinburgh, and a four-year Master of Clinical Dentistry in Fixed and Removable Prosthodontics at King's College London, also awarded with Distinction.

At our practice, I provide a full range of advanced restorative and implant treatments, as well as Invisalign and Enlighten tooth whitening. I also lecture nationally and internationally for King's College London on dental implantology and tooth surface loss.

Importantly, I've been involved in foundation training for several years and genuinely enjoy supporting newly qualified dentists. I remember what it was like starting out—how much there is to learn and how valuable it is to have someone approachable to turn to. I'm passionate about creating an environment where early-career dentists feel encouraged, supported, and confident to ask questions, take their time, and grow at their own pace.

If you're looking for a place where you can develop your skills, feel part of a friendly team, and get hands-on experience with support at every step, I'd love to work with you.

Outside of dentistry, I have two young children and enjoy travelling, skiing, golf, and staying active whenever I can.
