Training Details

The StR Post

This is a run-through-training post for 5 years. It is assumed that the appointee will pursue the full 5 year training to Consultant level. The trainees may rotate after 3 years to a different regional unit for the remaining 2 years.

These posts are available to commence 1st October 2024 on the Orthodontic Speciality Training Programme in NHSE NW. The post is 5 years in duration and will satisfy the requirements for the Membership in Orthodontics of The Royal Colleges and the ISFE.

ST1-3 will be focused on gaining competencies towards achieving the Royal College of Surgeons Membership in Orthodontics. ST4-5 will concentrate on Multi-disciplinary Orthodontic treatment providing higher specialty training in preparation for the Intercollegiate Specialty Fellowship Examination (ISFE) and FDS(Orth) of the Royal Surgical Colleges leading to eligibility to be appointed as a Consultant. The training Programme satisfies the requirements of the Specialist Advisory Committee (SAC) / General Dental Council (GDC). The research element of the programme will be in accordance with GDC's approved curriculum. The Training Programme is based at the University Dental Hospital of Manchester, with clinical commitments at MUDH & Royal Blackburn Hospital. The posts will be allocated an NTN in Orthodontics.

The post holder may enrol at the University of Manchester or alternative to study for the degree of Masters in Research (M Res). Alternatively, two papers may be submitted to peer review journals on work undertaken during the training period.

UoM M.Res MPH (part-time distance learning)

To complete 9 modules (15 credits each) and dissertation.

Total fees approx. £11,300 for the whole degree (spread over 2 or 3 year).

Duties and Responsibilities of postholder

These are non-resident posts at the hospitals in the training scheme.

The appointments are for 12 months in the first instance, renewable subject to satisfactory reports to a total of 5 years. The posts will comprise all aspects of orthodontic practice, including attendance at new patient clinics, management and treatment of malocclusion in children and adults. There are no out of hours on-call commitments. There is a commitment to cover casual patients according to a departmental rota.

Study leave facilities are available in accordance with the Terms and Conditions of Service subject to the approval of the Educational Supervisor and the Programme Director.

Administrative duties will include attendance at departmental meetings and undertaking some departmental administration.

The junior doctor accepts that he/she will also perform duties in occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant, in consultation where practicable with his/her colleagues both senior and junior. It has been agreed between the profession and the Department that while juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular the juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

The post holders may wish to register for an M.Res degree at the University of Manchester or other institution which is undertaken over 3 years part-time. Alternatively, two papers may be submitted to peer review journals on work undertaken during the training period.

Description of main training site

Orthodontic Department – Manchester Dental Hospital

The clinical facilities were re-equipped in 2017 and are situated in the West quadrant of the dental school. Orthodontics has sole use of 8 fully equipped dental units, plus access to a large multidisciplinary clinic that is composed of its own waiting area, three dental surgeries, one seminar room and oral hygiene room. The clinic incorporates University and Trust network access points on each dental unit. The secretarial offices are next to the main clinical area.

There is also a staff area this is equipped with 4 computers, scanners, printers and digitiser. These computers have access to the AJO and JCO via the network and also direct links to the on-line versions of the Journal of Orthodontics, European Journal of Orthodontics and the American Journal of Orthodontics.

The Regional Cleft Lip and Palate centre is situated in the new Manchester Children's Hospital.

Study leave facilities are available in accordance with the Terms and Conditions of Service subject to the approval of the Educational Supervisor and the Programme Director.

Administrative duties will include attendance at departmental meetings and undertaking some departmental administration.

The junior doctor accepts that he/she will also perform duties in occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant, in consultation where practicable with his/her colleagues both senior and junior. It has been agreed between the profession and the Department that while juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular the juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

Description of second training site

Blackburn Royal Infirmary

The East Lancashire NHS Trust comprises of the Royal Blackburn and Burnley Hospitals. The Royal Blackburn site was a new build 10 years ago with Burnley Hospital moving into a new build in 2019. This post holder will work at the Blackburn site which is 25 miles from the centre of Manchester, accessible by road or rail. The Trust is the largest provider of secondary care orthodontic services in the region.

There are 7 orthodontic clinical rooms across both sites and a large onsite laboratory undertaking orthodontic, restorative and maxillofacial prosthetic services. There are 2 existing orthodontic consultants with another post being appointed to shortly, in addition, there are 6 full time maxillofacial consultants and a restorative consultant. Over 10 years ago we were one of the first hospitals in the UK to undertake orthodontic therapist training and have another nurse who will shortly start therapist training. There is a high throughput of orthognathic cases (over 50 per year). The Trust has invested in the future with purchase of a da Vinci operating robot and 3D printing equipment. Over the next few years there will be a move toward 3D planning software and purchase of intraoral and facial scanners.
