Training Details

The StR Post

This is a run-through-training post for 5 years. It is assumed that the appointee will pursue the full 5 year training to Consultant level. The trainees may rotate after 3 years to a different regional unit for the remaining 2 years.

These posts are available to commence 1st October 2024 on the Orthodontic Speciality Training Programme in NHSE NW. The post is 5 years in duration and will satisfy the requirements for the Membership in Orthodontics of The Royal Colleges and the ISFE.

ST1-3 will be focused on gaining competencies towards achieving the Royal College of Surgeons Membership in Orthodontics. ST4-5 will concentrate on Multi-disciplinary Orthodontic treatment providing higher specialty training in preparation for the Intercollegiate Specialty Fellowship Examination (ISFE) and FDS(Orth) of the Royal Surgical Colleges leading to eligibility to be appointed as a Consultant. The training Programme satisfies the requirements of the Specialist Advisory Committee (SAC) / General Dental Council (GDC). The research element of the programme will be in accordance with GDC's approved curriculum. The Training Programme is based at the University Dental Hospital of Manchester, with clinical commitments at MUDH & Salford Royal Hospital. The posts will be allocated an NTN in Orthodontics.

The post holder may enrol at the University of Manchester or alternative to study for the degree of Masters in Research (M Res). Alternatively, two papers may be submitted to peer review journals on work undertaken during the training period.

UoM M.Res MPH (part-time distance learning)

To complete 9 modules (15 credits each) and dissertation.

Total fees approx. £11,300 for the whole degree (spread over 2 or 3 year).

Duties and Responsibilities of postholder

These are non-resident posts at the hospitals in the training scheme.

The appointments are for 12 months in the first instance, renewable subject to satisfactory reports to a total of 5 years. The posts will comprise all aspects of orthodontic practice, including attendance at new patient clinics, management and treatment of malocclusion in children and adults. There are no out of hours on-call commitments. There is a commitment to cover casual patients according to a departmental rota.

Study leave facilities are available in accordance with the Terms and Conditions of Service subject to the approval of the Educational Supervisor and the Programme Director.

Administrative duties will include attendance at departmental meetings and undertaking some departmental administration.

The junior doctor accepts that he/she will also perform duties in occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant, in consultation where practicable with his/her colleagues both senior and junior. It has been agreed between the profession and the Department that while juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular the juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

The post holders may wish to register for an M.Res degree at the University of Manchester or other institution which is undertaken over 3 years part-time. Alternatively, two papers may be submitted to peer review journals on work undertaken during the training period.

Description of main training site

Orthodontic Department – Manchester Dental Hospital

The clinical facilities were re-equipped in 2017 and are situated in the West quadrant of the dental school. Orthodontics has sole use of 8 fully equipped dental units, plus access to a large multidisciplinary clinic that is composed of its own waiting area, three dental surgeries, one seminar room and oral hygiene room. The clinic incorporates University and Trust network access points on each dental unit. The secretarial offices are next to the main clinical area.

There is also a staff area this is equipped with 4 computers, scanners, printers and digitiser. These computers have access to the AJO and JCO via the network and also direct links to the on-line versions of the Journal of Orthodontics, European Journal of Orthodontics and the American Journal of Orthodontics.

The Regional Cleft Lip and Palate centre is situated in the new Manchester Children's Hospital.

Study leave facilities are available in accordance with the Terms and Conditions of Service subject to the approval of the Educational Supervisor and the Programme Director.

Administrative duties will include attendance at departmental meetings and undertaking some departmental administration.

The junior doctor accepts that he/she will also perform duties in occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant, in consultation where practicable with his/her colleagues both senior and junior. It has been agreed between the profession and the Department that while juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular the juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

Description of second training site

Royal Salford University Foundation NHS Trust

The Trust comprises Hope Hospital, Salford and associated Units. It is an integrated provider of hospital, community and primary care services, including a University Teaching Hospital. It has 6000 staff providing services to the City of Salford. It is currently in the final phase of a £200million redevelopment scheme.

Orthodontic Department

Orthodontic Staff

Miss Sara Hosni Consultant Orthodontist

Mr Ovais Malik Consultant Orthodontist

StR Orthodontic

Orthodontic therapists

Other Clinical Staff

Consultant Oral and Maxillofacial surgeon

Junior and Non-Career Grade oral surgery staff

Hygienist

There are 4 multipurpose dental surgeries and one consulting room.

The appointee would be expected to take an active role within the department. Particularly taking a lead in audit and clinical governance which is well established in the Trust. The department is shared with maxillofacial colleagues with whom regular orthognathic joint clinics are undertaken.

The maxillofacial laboratory is situated within the department. This carries out a wide range of maxillofacial prosthodontic work, in addition to routine and specialised orthodontics. The hospital has a large medical illustration department.
